Little Fauss and Big Halsy ,2013 **Little Fauss and Big Halsy** Charles Eastman,1970 Little Fauss and Big Halsy Charles Eastman,1970 *The Limits of Auteurism* Nicholas Godfrey,2018-05-10 The New Hollywood era of the late 1960s and early 1970s has become one of the most romanticized periods in motion picture history celebrated for its stylistic boldness thematic complexity and the unshackling of directorial ambition *The Limits of Auteurism* aims to challenge many of these assumptions Beginning with the commercial success of *Easy Rider* in 1969 and ending two years later with the critical and commercial failure of that film's twin progeny *The Last Movie* and *The Hire Hand* Nicholas Godfrey surveys a key moment that defined the subsequent aesthetic parameters of American commercial art cinema The book explores the role that contemporary critics played in determining how the movies of this period were understood and how in turn strategies of distribution influenced critical responses and dictated the conditions of entry into the rapidly codifying New Hollywood canon Focusing on a small number of industrially significant films this new history advances our understanding of this important moment of transition from Classical to contemporary modes of production **The Sundance Kid** Lawrence J. Baer, 2019-10-09 The world now has more than a billion motor vehicles and this number continues to increase as developing countries imitate developed societies in their adoption of the culture of automobility This book explores the political ecology of motor vehicles in an era of growing social disparities and environmental crises the latter of which are most manifest in anthropogenic climate change to which motor vehicles constitute a major contributor A political ecological perspective recognizes that motor vehicles perhaps more than any other machine embody the social structural cultural and environmental contradictions of the capitalist world system In addition to highlighting many of the environmental social and health environmental consequences of humanity s increasing reliance on motor vehicles particularly private automobiles this book argues that ultimately we need as a species to move beyond motor vehicles as much as possible but that such an effort will have be part and parcel of creating an alternative world system based on social justice democratic processes environmental sustainability and a safe climate one termed democratic eco socialism
